

The Oak Ridge Institute for Science and Education (ORISE) is currently recruiting recent graduates for the U.S. Department of Energy Career Intern Program. The DOE Career Intern Program is an intensive two-year entry-level employment opportunity that provides training and career development in basic core competencies needed across DOE. The program is open to US citizens who hold at least a bachelor's degree. The majority of the positions, unless otherwise noted, are in the DC Metro Area; and most positions at this time require master's degrees. Please feel free to share this with your peers and colleagues.

[Opportunity 1: Civil Engineer](#)

Degree in engineering with experience in construction management, master's preferred. Commercial construction management preferred.

[Opportunity 2: General Engineer](#)

Degree in engineering with experience in clean coal/carbon sequestration, master's preferred.

[Opportunity 3: General Engineer](#)

Degree in electrical engineering with experience or research on the nation's electric grid, master's preferred.

[Opportunity 4: Human Resources](#)

Master's degree in human resources with experience in federal government HR, especially classification and processing.

[Opportunities 5&6: Human Resources](#)
